Dear Carol

Issues & Options Consultation – The Society's Response

Please find enclosed the Society's submission under the consultation closing today.

I trust you will find it a reasonable and well-argued document.

We have devoted a considerable amount of time and research effort, including membership and public meetings, in addressing and answering the questions posed. Therefore I hope our submission will be treated as if from a statutory consultee.

Please contact me should you or your colleagues have any questions on our submission.

Yours sincerely

Bill Stokoe
Chairman
